

## **LODI CITY COUNCIL**

**Carnegie Forum**  
**305 West Pine Street, Lodi**

## **"SHIRTSLEEVE" SESSION**

**Date: May 15, 2007**

**Time: 7:00 a.m.**

For information regarding this Agenda please contact:

**Randi Johl**

**City Clerk**

**Telephone: (209) 333-6702**

*NOTE: All staff reports or other written documentation relating to each item of business referred to on the agenda are on file in the Office of the City Clerk and are available for public inspection. If requested, the agenda shall be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof. To make a request for disability-related modification or accommodation contact the City Clerk's Office as soon as possible and at least 24 hours prior to the meeting date.*

### **Informal Informational Meeting**

**A. Roll call by City Clerk**

**B. Topic(s)**

B-1 Presentation of Proposal to Replace Schedule MCA (Market Cost Adjustment) with  
Schedule ECA (Energy Cost Adjustment) (EUD)

**C. Comments by public on non-agenda items**

**D. Adjournment**

Pursuant to Section 54954.2(a) of the Government Code of the State of California, this agenda was posted at least 72 hours in advance of the scheduled meeting at a public place freely accessible to the public 24 hours a day.

Randi Johl  
City Clerk

## CITY OF LODI COUNCIL COMMUNICATION

TM

**AGENDA TITLE:** Presentation of Proposal to Replace Schedule MCA (Market Cost Adjustment) with Schedule ECA (Energy Cost Adjustment)

**MEETING DATE:** May 15, 2007 (Shirtsleeve Session)

**PREPARED BY:** City Manager

**RECOMMENDED ACTION:** Review changes to Chapter 13.20, "Electrical Service," regarding recommendation to replace Section 13.20.175 Schedule MCA (Market Cost Adjustment) with Schedule ECA (Energy Cost Adjustment) to be effective July 1, 2007, which is scheduled to come before the City Council as a public hearing at its regular meeting of May 16, 2007.

**BACKGROUND INFORMATION:** Prior to June 2001, when the Market Cost Adjustment (MCA) was implemented, Lodi's electric rate schedules included an element similar to the ECA, which was called a purchased power cost adjustment (PPCA). The MCA superceded the old PPCA. Whereas the PPCA was applied equally to all kWh on all rate schedules, the MCA has been applied differently to specific rate classes and in some cases on a tiered amount based on monthly consumption. At times, some rate classes saw as much as 19¢ per kWh MCA, while others received little or no MCA. The MCA was intended to be reviewed/revised on a quarterly basis and requires City Council action to make adjustments. The proposed ECA, on the other hand, would provide for "automatic" adjustments with reduced electricity prices theoretically just as likely as increased charges.

Similar schedules are utilized by electric utilities nationwide, including many of California's publicly owned utilities (i.e. Anaheim, Redding, Pasadena, Los Angeles, Imperial Irrigation District, and Roseville). Both of the financial rating agencies (Standard & Poors and Fitch) involved in periodic assessment of Lodi Electric Utility's financial condition and outlook have strongly supported the implementation of automated energy cost adjustment mechanisms as proposed herein.

The initial ECA base rate (\$.0831) being proposed is the approximate energy cost per kWh as reflected in current electric rates. The ECA would be recalculated each month as actual costs are determined and the resulting values implemented for bills rendered on the first day of the following month. Staff proposes to provide ECA calculations to the Lodi Budget and Finance Committee for their ongoing verification.

The ECA would be applied equally to all City of Lodi electric rate schedules, be non-discounted and would replace Schedule MCA – Market Cost Adjustment.

Attached is a copy of the proposed Schedule ECA, a 12-month example utilizing fiscal year 2008 projected sales and energy costs and a preliminary financial forecast for fiscal year 2008.

APPROVED: \_\_\_\_\_  
Blair King, City Manager

**FISCAL IMPACT:** The ECA is intended to be revenue/cost neutral – e.g. when energy costs increase, the ECA increases to offset such costs. The reverse is true during periods of energy cost declines. At the proposed baseline ECA level of .0831 per kilowatthour and projected fiscal year 2008 energy costs of \$42.3 million, ECA net revenue of \$3.2 million is projected for fiscal year 2008. This is projected to result in a net increase in fiscal year 2008 working capital of \$1.4 million. (see attached.)

**FUNDING:** Not Applicable.

## ELECTRIC UTILITY DEPARTMENT

### SCHEDULE ECA

### ENERGY COST ADJUSTMENT

#### **APPLICABILITY:**

This schedule is applicable to all electric customers served by the City of Lodi. Each customer shall pay the applicable rate plus an Energy Cost Adjustment (ECA) for each kilowatt-hour (kWh) delivered to the customer. The adjustment shall be the product of the total kilowatt-hours (kWh) for which the bill is rendered times the adjustment amount per kWh.

The purpose of the ECA is to adjust for increases/decreases to the City of Lodi's wholesale energy costs. This adjustment provides a mechanism to recover increased costs for wholesale energy or to lower collections when costs decrease below the base charge level.

#### **RATES:**

Effective July 1, 2007, the ECA billing factor for any given month shall be calculated as follows:

$$ECA = \frac{(a) + (b) - (c)(d+f)}{(e)} - (f)$$

Where:

- (a) equals the amount the City of Lodi is actually charged by the Northern California Power Agency for the billing month, including adjustments for prior billing periods, less any third party revenue credits.
- (b) equals the City of Lodi's estimated costs related to the acquisition of wholesale power, both financial and physical, procured directly by the City for the billing month, including adjustments for prior billing periods.
- (c) equals the difference between actual retail energy sales and projected sales level for the month which is two (2) months prior to the billing month.
- (d) equals the ECA billing factor for the month which is two (2) months prior to the billing month.
- (e) equals the forecast of projected retail energy sales for the billing month.
- (f) equals the baseline energy cost for the City of \$0.0831.

The City of Lodi will recalculate the ECA each month, and resulting amount shall be automatically implemented for bills rendered during the following billing month. ECA calculations will be presented to the Lodi Budget and Finance Committee for their ongoing audit verification.
